

LABOR'S SET BEST IN DUCK MATCHES

Only Four Teams Out of Forty-
four Roll All Games Above
500 Mark.

Of forty-four five-man duckpin teams that rolled last night only four were able to knock down more than 500 in each of their games. These were Labor, of the Departmental League, which led off with 519, 545, and 555 for a set of 1,619; Arcadians, of the Arcade League, with 520, 512, and 539; McHugh's, of the Northeast League, with 540, 562, and 526; and Bethany, of the Interdenominational circuit, with 502, 510, and 501.

Miller's Best Set.
Anchor Man Miller, of Labor, was the best individual performer. He rolled successive games of 100, 114 and 142 against Land, which his team defeated three straight. Miller had a close rival in E. Hartnell, of Bethany, whose strings of 109, 138, and 108 placed him one pin behind the Labor bowler for set honors and three pins behind for the best game.

Many leagues having called a halt in the rolling to give the bowlers time to prepare for Christmas, among these being the strongest circuits of the city, little is expected during the present week in the way of exceptional scores. Starting with next week, league bowling will cease almost entirely until after New Year Day.

Special Events Scheduled.
Bowling alleys are preparing for special events to be run off Christmas Day. While most of them will stage tournaments, a number will give away prizes for high scores instead. Among these will be the National Capital, which will present a gallon of ice cream for the biggest game rolled every hour.

A few days before Christmas the Southeast establishment will hold the roll-off of its freck tournament, in which the low score will determine the winner.

AL K. HALL TAKEN FOR "DEAF MUTE"

Gayety Headliner Tells Amusing
Experience He Had on
Board Train.

Many things might happen to Al K. Hall, headliner at the Gayety Theater this week, but the thing most unlikely to happen would be for some one to take him for a deaf mute.

Yet this is exactly what took place between Detroit and Pittsburgh when Al wanted a light for his cigarette. Traveling on a Pullman with a fellow entertainer—although they were strangers—Al approached him and asked him for a match. The noise of the car wheels drowned his words.

Al repeated the request, but as before, it fell on unheeding ears.

How Acquaintance Grew.
"He must be deaf," thought Al, as he made a sign of striking a match. The man instantly understood, gave the desired light and soon they were seated together. But let Al tell it.

"After a while the man pointed at a watch for I was wearing and made a sign about it. I replied as best I could. He wrote his name on a piece of paper and handed it to me.

"Thus our acquaintance grew. After a time a man sitting with my dumb friend leaned over and said to him: 'Did this guy say he lives in Brooklyn?'"

"The 'deaf mute' replied that I did. Then it was all off. But I was so surprised I couldn't speak."

Successful From Start.

Al has been in the show business for some time. The cause of his entering it was a desire to replenish the family fortunes.

His father lost his savings in a great fire, and Al took to the stage to bolster up the family purse. He was successful from the start.

Although born in France, Hall is a real, honest-to-goodness American. He smokes the best brand of American-made cigarettes, and has an American accent.

One bright feature in the life of the inimitable comedian is "Alcohol, Jr.," who arrived at the Brooklyn home not so long ago. "He's already a better actor than his father," commented the proud ancestor.

Stage On Higher Plane.
Al K. Hall believes, along with many other people, that American stage life is being put on a higher plane. As an illustration, he says "burlesque is different from the overripe shows staged in the old days."

"I believe the plane of the stage is being raised," said Hall, "because

Relief comes instantly.
A dose taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharges or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

"Don't stay stuffed up! Quit blowing and snuffing! Ease your throbbing head! Nothing else in the world gives such prompt relief as 'Pape's Cold Compound,' which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

—Advt.

BANKERS HAVE MAGAZINE

First Issue of Washington Chapter
News Makes Appearance.

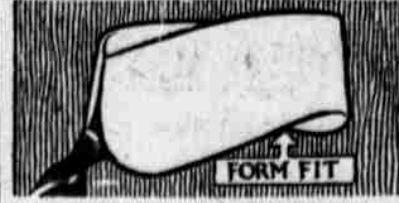

The initial issue of Washington Chapter News, which is to be the official organ of the Washington Chapter of the American Institute of Banking, has just made its appearance.

"Our president and board of governors, after seriously considering the proposition and consulting with senior bankers, decided to give Washington Chapter a magazine of its own. Several chapters throughout the country have been publishing a monthly issue with very creditable results. Washington Chapter feels that it can do likewise. It is hoped that Washington Chapter News will stimulate a greater interest among the banking fraternity of Washington in the educational work being conducted by the chapter and materially increase its membership."

The current issue includes an article on the condition of the Federal reserve banks, by John E. Tyler, editorial comments by Roy L. Neuhouser, president of the chapter, and a discussion of the farm loan act by Frank R. Wilson. A number of bankers and brokers have expressed their approval of the project in a material way by placing advertisements in the initial issue.

John A. Petty is editor-in-chief of

the new publication with Oliver W. Brickhead, George L. Thomas, and John E. Tyler, associate editors. F. R. Steffens is business manager.

FOOD COST PROBE IS PUSHED HERE

Department of Justice Replies
to Statements That Investigation
Has Ended.

The Federal investigation into the high cost of living is being vigorously prosecuted, despite statements to the contrary, officials of the Department of Justice said today.

"The Government is in this investigation 'up to its neck,'" one official said today.

This was the answer to published statements that the crusade to end the high cost of living has "come to an untimely end."

Conducts Investigations.
Special Assistant Attorney General Anderson remains in Washington to conduct the food and coal investigations. Mr. Anderson, from his temporary office in the Department of Justice, is being directing the nation-wide inquiry into
